-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The election mailed on 6/17/05 is acknowledged and claims 1-3 are examined.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Aoki et al. (6,407,982).

Aoki et al., figures 1, 5 and 9, disclose a card-type terminal comprising :

- a tray (1) slid in and out freely with a memory card (D) mounted; and
- a guide (22) helps the tray slide in,

wherein the tray comprising a holder (5) that secures a forward-end center section of the memory card on the tray.

Regarding claim 2, figure 7B, the tray comprising an elastic restraining piece (6) that secures a backward-end center section of the memory card.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Aoki et al. (6,407,982) in view of Yao (6,050,848).

Aoki et al., figures 9 and 10, disclose a metal cover (32) cover the guide, wherein the guide comprising a pair of guards (26) that demarcate a tray loading slot by sticking out from an edge of the metal cover from both sides of a width orthogonal to the insertion direction of the tray, forming enough space between the guards to allow the elastic restraining piece to enter, except for the pair of guards like cantilever beams.

Yao, figure 1, discloses an adapter base (10) having a pair of resilient hooks (14) read on the pair of guards like cantilever beams. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Aoki et al. to have the pair of resilient hooks, as taught by Yao, for better engagement.
